

I've been high I've been mad  
I've been happy not been sad  
I've been so lonely and blue  
And I think it's all 'cause of you  
I've been red and I've been yella  
People don't think that I even need to tell ya  
Better have a drink and think  
Oh when I talk to you about your

What do you want from  
Whatever you need from  
I see your earth is shakin for forsaken
